Jean-Paul Sartre (1905–1980): Critique of Dialectical Reason, published in 1960, is Sartre’s greatest attempt at synthesizing his existentialist philosophy with sociological analysis. In the work, his previous focus on human freedom and responsibility is placed within a corresponding analysis of the specific structures of domination that humanity confronted in 1960.

Critique of Dialectical Reason, Critique of Dialectical Reason (French: critique de la raison dialectique) is a 1960 book by the philosopher Jean-Paul Sartre, in which the author further develops the existentialist Marxism he first expounded in his essay Search for a Method (1957). Critique of Dialectical Reason and Search for a Method were written as a common manuscript, with Sartre intending the former to logically precede.

The answer, I suggest, is that in his Critique Sartre does away with the teleology that characterizes Marxist history, rejects the positivism that infuses scientific Marxism, and opposes all forms of mechanical dialectical thought. To be sure, Sartre retains significant elements of Marxism: he maintains that human beings are shaped by their historical situation, and that the tension between economic modes of production and social relations is central to that historical situation.

Critique of Dialectical Reason, Vol. 2: Jean-Paul Sartre (1905–1980) was a French existentialist philosopher, playwright, novelist, and political activist, who wrote many other books such as Being and Nothingness, the Transcendence of the Ego, Search for a Method, etc. The companion volume is Critique of Dialectical Reason, Vol. 2.

Critique of Dialectical Reason, Vol 1: Theory of Practical Reason: The critique of dialectical reason grew out of Sartre’s increasing disagreement with Marxist theory, as well as his disenchantment with the realities of life in Soviet Russia. In immediate terms this book grew out of the intellectual sparing between himself this is an advanced work on dialectical theory, existentialism, epistemology and ontology.

Jean-Paul Sartre (Stanford Encyclopedia of Philosophy) in fact, he explicitly rejected "Machiavellianism." If Sartre's first and best known ethics corresponds to the ontology of being and nothingness, his second, "dialectical" ethics builds on the philosophy of history developed in the critique of dialectical reason.

A Critique of Existentialism / Benjamin Studebaker There's a problem with existentialism, specifically Jean Paul Sartre's concept of "existence precedes essence." Today I'd like to talk about that concept, why it is flawed, and what implications all of this has for our wider society and political structure. First, "existence precedes essence" needs to be explained. Existence is consciousness, while essence is genetic.

The Jean-Paul Sartre Internet Archive Jean-Paul Sartre archive 1905-1980 What do we mean by saying that existence precedes essence? We mean that man first of all exists, encounters himself, surges up in the world and defines himself afterwards. If man as the existentialist sees him is not definable, it is because to begin with he is nothing.
A commentary on Jean-Paul Sartre's Critique of dialectical reason ranks with Being and Nothingness as a work of major philosophical significance, but it has been largely neglected.
